Air Medical Resource Group Accepts Delivery of NVG Upgrade from Aero Dynamix

Eules, TX - Aero Dynamix, Inc. (ADI) is very proud to announce their selection by Air Medical Resources Group (AMRG) as the preferred NVIS solution provider on their EMS rotorcraft. "We are extremely pleased to be working with AMRG and to be a part of their known excellence and contributions in the EMS community" said ADI's Chief Operating Officer Tonka Hufford. Currently, ADI has been awarded a contract to provide FAA approved NVG STC modifications for the fleet of AMRG's new Airbus H125 aircraft of which five have been successfully completed on schedule thus far. In addition to the current H125 effort, ADI is also working with AMRG on their new additions of H130 aircraft and providing a new STC for this configuration. The NVG modifications are comprised of a combination of internal lighting modifications to OEM equipment, replacement of illuminated panels and additions of NVG compatible overlays.

"AMRG operates a diverse fleet of aircraft and we look forward to the new partnership with Aero Dynamix. Aero Dynamix has continued to provide unsurpassed customer service and support along with providing the best NVIS solution in the marketplace," said Nathan Word Vice President of Maintenance for Air Medical Resource Group.
