

## **AeroBrigham Focused on Depth and Capabilities of the Company**

*February 27, 2017 - Decatur, TX*

Helicopter and airplane maintenance, repair, and overhaul provider, AeroBrigham, has launched a campaign to focus on their deep experience and broad depth of capabilities. From utility configured aircraft to ultra-corporate, the company provides professional services such as total reconfiguration and completions, to paint, interior, avionics and repair services. The North Texas based company will again be exhibiting during the Helicopter Association International (HAI) Heli-Expo at the Dallas, Texas, Kay Bailey Hutchison Convention Center from 7-9 March 2017. During the event, AeroBrigham will hold a drawing for a pair of women's Christian Louboutin shoes in addition to a women's Christian Louboutin clutch bag.

The company's new maxim, "From High Class to Classic, Our Standards Remain the Same", highlights the broad range of services offered by AeroBrigham. This first drawing is aimed at their high class offerings such as VIP and corporate aircraft completions. The classic drawing will be later this year at an upcoming trade show and will feature classic Lucchese handmade boots as a comparison to their utility aircraft completions.

AeroBrigham co-owner and longtime industry maintenance professional, David Brigham commented, "We have experience with not just basic configurations but also with the most sophisticated helicopter or airplane configuration and can provide comprehensive support to a broad range of aircraft owners and operators. The luxury items we are offering in our drawings are reflective of our level of service and attention to detail which are also showcased in our completions."

Located at the Decatur Municipal Airport (KLUD) in Decatur, Texas, north of the Dallas/Ft. Worth area, AeroBrigham is an FAR Part 145 repair station that offers complete maintenance, repair, and overhaul services, as well as inclusive helicopter and airplane completion services including aircraft interiors, avionics installation

and modification, paint and heavy maintenance. Additional information regarding the extensive helicopter and airplane support capabilities at AeroBrigham can be found at [www.aerobrigham.com](http://www.aerobrigham.com) or by calling 940.626.4849.
