

### **Metro Aviation, PAC International and Outerlink attend ALEA 2016**

**20 JUL 2016** – SAVANNAH, GA – Metro Aviation, a worldwide completion leader and partner to several law enforcement agencies across the country, will exhibit at this year's Airborne Law Enforcement Association (ALEA) conference and exposition at the Savannah International Trade and Convention Center in Savannah, Georgia from July 20-22. Outerlink and PAC International, both Metro Aviation companies, are also exhibiting at this year's conference.

Metro completes an average of 35 aircraft each year and works with some of the most recognized law enforcement agencies in the U.S., but completions are only one point of discussion for the company. The Helicopter Flight Training Center, located at Metro's facility in Shreveport, Louisiana, is currently installing a fourth simulator, the EC145 Level D full motion simulator. It joins an existing EC135 Level D full motion simulator, AS350 Level 7 flight training device and Bell 407 Level 7 flight training device. The training center provides a variety of opportunities including the CommLab, a simulator for communication specialists, factory maintenance training and assistance with the development of training programs tailored to individual organizations.

PAC International, well known for quality law enforcement and utility completions, will be on hand to discuss completion opportunities with ALEA attendees. Located in Mount Pleasant, Pennsylvania, PAC is a Bell Customer Service Facility and FAA-approved Completion and Customization Facility for Agusta-Westland and Airbus Helicopters.

Outerlink Global Solutions will showcase the IRIS product, a comprehensive, lightweight, monitoring, recording and next generation satellite communications system. The IRIS solution gives operators the ability to see their fleet and aircraft data in real-time, receive immediate alerts and warnings and communicate with pilots through push-to-talk technology. Outerlink leadership will present a technical briefing Thursday at 1pm at the exposition.

Metro Aviation, PAC International and Outerlink Global Solutions invite all attendees to visit booth #128 during the ALEA conference to learn more about the opportunities provided by the Metro Aviation Companies. For more information, visit [metroaviation.com](http://metroaviation.com).

**About Metro Aviation:**

Metro Aviation, Inc., based in Shreveport, Louisiana, United States is a worldwide provider of completion services for all missions and types of helicopters and specializes in the EC135 and EC145 with several Supplemental Type Certificates (STC) developed by the company for these and other aircraft. Metro is an FAA approved repair station, approved Airbus (Eurocopter) Service Center and FAR Part 135 air medical operations provider at several locations across the United States. The company is privately held and is one of the largest traditional air medical providers in the country. For additional information regarding Metro Aviation, Inc. and any of its products or services, please contact Kristen King Holmes at 318.698.5200 or [kking@metroaviation.com](mailto:kking@metroaviation.com).

**About Outerlink:**

Outerlink Global Solutions is focused on providing organizations with solutions to identify and mitigate risks. IRIS is a turnkey solution for maintaining operational control and oversight from a single corporate operator to fleet operations. Combining the four key elements of monitoring, alerting, tracking and communication, IRIS exceeds any system commercially available today. For more information, visit [Outerlink.com](http://Outerlink.com).

**About PAC International:**

PAC International in Mount Pleasant, Pennsylvania, United States is a worldwide provider of completion services for various types of helicopters and specializes in Bell aircraft. PAC is a Bell Customer Service Facility and 145 Repair Station for Bell, AgustaWestland, Airbus, Sikorsky and McDonnell Douglas.
