

# Aero Dynamix, Inc.

FOR IMMEDIATE RELEASE

January 3, 2017

Aero Dynamix Inc. (ADI) today announces another aircraft model and STC added to their long list of NVG certifications. The FAA has issued STC# SR9868AC to ADI for the Robinson R44 Night Vision Compatible Lighting System which is comprised of a combination of both internal avionics modifications as well as the addition of a NVIS white LED overlay and instrument cluster. “As this platform has successfully grown and gained popularity in the marketplace over the years it’s been an opportunity that we have been looking forward to for some time.” said ADI’s Chief Operating Officer Tonka Hufford. “Our team is very proud of this modification and once again provided the superior solution in both night and day time instrument readability for our customers.”

## About Aero Dynamix
