

Twirly Birds Announce Annual Meeting in Dallas, Texas

27 FEBRUARY 2017 - Dallas, TX

International helicopter pilot organization, Twirly Birds, will again hold their annual membership meeting in conjunction with the Helicopter Association International (HAI) Heli-Expo in Dallas, Texas on Tuesday 7 March 2017 beginning at 5 p.m. at the Hilton Anatole Hotel, Wedgwood Room. General membership qualification requirements are to have flown solo in a helicopter or vertical lift aircraft at least twenty years previously. Membership information is also available on the Twirly Birds website at www.twirlybirds.org and attendance at the annual meeting is not required to become a member.

If you meet these requirements or are already a member, Twirly Birds would like to invite you to their annual meeting in Dallas.

Twirly Birds was founded over seventy years ago when a small group of pilots met to share stories and the common experiences of flying helicopters during these early years of vertical flight. Notable past members of Twirly Birds include Charles Lindbergh, Igor Sikorsky, Stanley Hiller, Alan Bristow and Wes Lematta, to name a few. The intent was then and now, to share the common bond of vertical flight. The group has no political or commercial interest and is by design, a social group comprised of individuals. Membership dues are very modest and the group publishes a newsletter several times a year to keep the membership updated. Catch up with old friends and make new ones by joining Twirly Birds!

About Twirly Birds

Twirly Birds is an international organization founded in 1945 by pioneering pilots of helicopters and other vertical takeoff aircraft. The sole purpose of this nonprofit organization of individuals is to recognize and foster the fellowship of those brought together by the common bond of vertical flight and to facilitate the cordial exchange of experience and opinions as the

helicopter and other vertical takeoff aircraft art progresses. For more information regarding the organization, please visit the Twirly Birds website at <http://www.twirlybirds.org>.
