

Helinet Technologies Names New VP of Sales

Glenn Patterson brings 30 years of technical and sales expertise to Helinet Technologies

LOS ANGELES, Calif. — July 12, 2016 — [Helinet Technologies](#) (HT) today named industry veteran Glenn Patterson vice president of sales. In his new role, Patterson will bring his extensive technical skills for customized microwave downlink solutions and will lead a team that has doubled this year. HT is a leader in microwave downlink systems, streaming transmission of HD video and digital data for surveillance and ground command. Helinet Technologies works worldwide with law enforcement, government and public safety agencies.

“Aerial surveillance and transmission used by public safety is complex, and Glenn has a battle-tested track record in building and servicing,” said Kathryn Purwin, CEO of Helinet. “From air to mobile command vehicles to multiple IP devices, Glenn knows what systems to offer that best suit the customers’ needs and why.”

Patterson has worked for two of the industry’s most well-known manufacturers, Vislink and IMT, designing, demonstrating and marketing downlink systems. Career highlights include governmental contracts with [NASA](#), [Eglin Air Force Base](#), [Houston Police Department](#) and [Broward County Sheriff’s Office](#). Patterson also won an Emmy for “[Outstanding Engineering Achievement](#)” in 2003 for his work in broadcast.

“Helinet uses the most advanced technology from a variety of manufactures to provide its clients with the best solutions for their missions. The kind of customer service HT offers, 24/7/365 support, is unparalleled,” Patterson noted. “I’m proud to be a part of a company that is so well-established and has such a respected reputation. I look forward to further expanding Helinet’s place in the market.”

About Helinet Technologies

A division of Helinet Aviation, Helinet Technologies is an international provider of aviation technology solutions to the law enforcement, government and public safety markets. Customization is king and Helinet Technologies designs, installs and maintains surveillance and transmission systems for agencies across the globe. The firm offers a full suite of mission-tested services, from basic equipment sales to fully turnkey surveillance solutions. Helinet Technologies is online at www.helinettechnologies.com.
