

# **Vector Aerospace signs contract with the Italian *Guardia di Finanza* for Rolls-Royce M250 engine MRO**

**For Immediate Release**

**March 8, 2017**

---

**Dallas, TX** – Vector Aerospace ([www.vectoraerospace.com](http://www.vectoraerospace.com)), a global independent provider of aviation maintenance, repair and overhaul (MRO) services, has signed a two-year engine support contract with the *Comando Generale della Guardia di Finanza* (Italian Financial Police).

The contract covers the maintenance, repair and overhaul of Rolls-Royce M250 engines installed on the agency's fleet of NH500 light turbine helicopters, a locally produced version of the MD Helicopters MD 500. This is the first major contract to be awarded to Vector Aerospace by a branch of the Italian government.

"We are pleased to sign this contract with the Italian Financial Police, and we look forward to providing outstanding support to our new and valued customer over the next two years," said Craig Pluim, Vice President, Sales, Rotary-Wing at Vector Aerospace.

Vector Aerospace has over 25 years of experience supporting the Rolls-Royce M250 series of engines as an Authorized Maintenance Repair and Overhaul Center (AMROC), with full capability in Richmond, BC, Canada and with branch locations in Dallas, TX USA and Fleetlands, Gosport, UK. Vector offers complete MRO support for the M250 product line, including borescope inspection, failure analysis, freewheel shaft R&O, model conversions, in-house test capability and global field service support. Vector also offers its customers a pool of lease and exchange M250 engines and engine parts.

In addition, Vector is a Honeywell Authorized Repair & Overhaul Center for fuel control units and power turbine governors on M250 series engines, and a Triumph Engine Control Systems Authorized Repair & Overhaul Center for hydromechanical units (HMUs) on M250-C47/C40 series engines.

## **About Vector Aerospace**

Vector Aerospace is a global provider of aviation maintenance, repair and overhaul (MRO) services. Through facilities in Canada, the United States, the United Kingdom, France, Australia, South Africa, Kenya and Singapore, Vector Aerospace provides services to commercial and military customers for gas turbine engines, components and helicopter airframes. Vector's customer-focused team includes over 2,200 motivated employees.

Vector Aerospace holds approvals from some of the world's leading turbine engine, airframe and avionics OEMs. Powerplants supported include a wide range of turboshafts, turboprops and turbofans from General Electric, Honeywell, Pratt & Whitney Canada, Rolls-Royce and Safran. Vector Aerospace also provides support for a wide range of airframes from Airbus Helicopters, Bell, Boeing, Leonardo Helicopters and Sikorsky, its capabilities including major inspections and dynamic component overhaul, and offers full-service avionics capability, including aircraft rewiring, mission equipment installation and glass cockpit upgrades.
